

JNR/BEACH Global Anti Goal

JNR/BEACH Polo 2.5m x 0.8m

The 2021 release of the 'Global Anti Goal' represents the culmination of 50 years of experience in Goal innovation, design and production.

The JNR Model Goal is designed and produced in Australia to the highest specifications. Compliant with all current WA JNR and WA BEACH POLO Competition regulations.

The Global Anti Goal blends cutting edge materials and production with innovative design, resulting in a durable, full sized Polo Goal, perfectly suited to all Clubs and Polo facilities.

The AWE333 JNR Conversion Kit converts full sized Anti Wave Goals (SNR, Anti & Global Goals) from full sized goal face to JNR Sized Goal face (2.6m x 0.9m) for Junior game-play and training.

Also available - Goal Training Targets provide shooters with a high visibility target that give a positive audible slap one hit.

Global Anti Goals now shipped to 62 Countries since release in 2021 - a Global Favourite!

DURABILITY ✓ INNOVATIVE DESIGN ✓ LIGHT WEIGHT ✓

AWE390 JNR/BEACH Global Anti Goal:
(Inner Front Frame Dims)

AWE390 JNR Global Anti Goal shown above

Total weight is AWE390 is 20kg. Compact light weight Shipping dimensions for efficient Freight options.

Comprehensive list of spare parts available.
All parts designed and produced in Australia.

Customer Testimonial:

Concerning our new Anti Global Goals, we LOVE that the Goals are Light and durable, well constructed, quality product. The Rear Cross frame cable holds many balls for easy access during training, the cage floats perfectly with highest quality foam floats, the goal folds easily for storage and looks great. Warm Regards, George Stransky, Alaska.

Customer Testimonial:

Got to say we love our new goals!!! I think this picture says it all. Easy for one person to handle. They float perfectly and fold up when we are done. Amazing! Thanks Anti & Anton. This is a great product.

Customer Testimonials:

Mrs Nicola Johnson, Brisbane, Australia, May 10 2021
FINA Water Polo Referee (2021 Tokyo Olympics)
BEd, Dip Ed, MEd - Leadership

"The new Anti goal is the best goal I have seen in over 30 years of water polo, it is light weight - one person can handle the goal, it is very durable and I love the training rod along the back of the goal that allows for balls to be stored in the back of the net during training sessions, this is such a great inclusion, go easy for the GK to reach for a ball when needed. The goals are also easy to store as they fold into a very compact area.
Regards, Nicola" Johnson, Brisbane, Australia, 2021

- Chairman organising Committee FINA World Champs Perth 1991 and 1998.

I can not recommend the new Anti Wave Global Goal highly enough as its revolutionary design makes it the best water polo goal I have ever seen in almost 70 years of international water polo in all 5 continents. The new goal is made in Australia by Anti & Anton Kajlich, who have been making goals since 1972 Munich Olympics. The goal is very endurable in marine and chlorinated water. The new Goal's main outstanding attribute is its light weight which can easily be carried by one adult or two young players. Its light weight and steadiness in the water while it folds easily and has some other unique features. The one I like the most is when as a Coach you are refereeing a training game, and a shot at goal is missed by one of the teams there is a wire restraining spare balls in the back of the goal and so the opposing goalie can simply reach for one of the balls, to continue with the game and the goal throw immediately and capitalise on any counter attack that may ensue from the missed goal shot. It conforms completely with FINA specifications. I am enthusiastically endorsing this new water polo goal and I testify that I am receiving no financial or other incentive to do so but simply because I believe it is a fantastic product for the sport of Water Polo.
Tom Hoad, Canberra, Australia, 2021
